subject: Design Registration Protection of Alpha Series

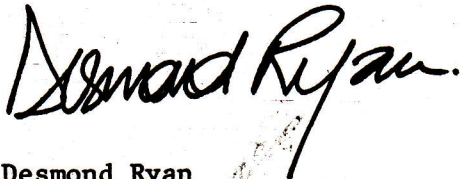

---

Sid, . . . Could you please initiate the design registration process for the two products that I have enclosed photographs of. Only one will be chosen for manufacture.

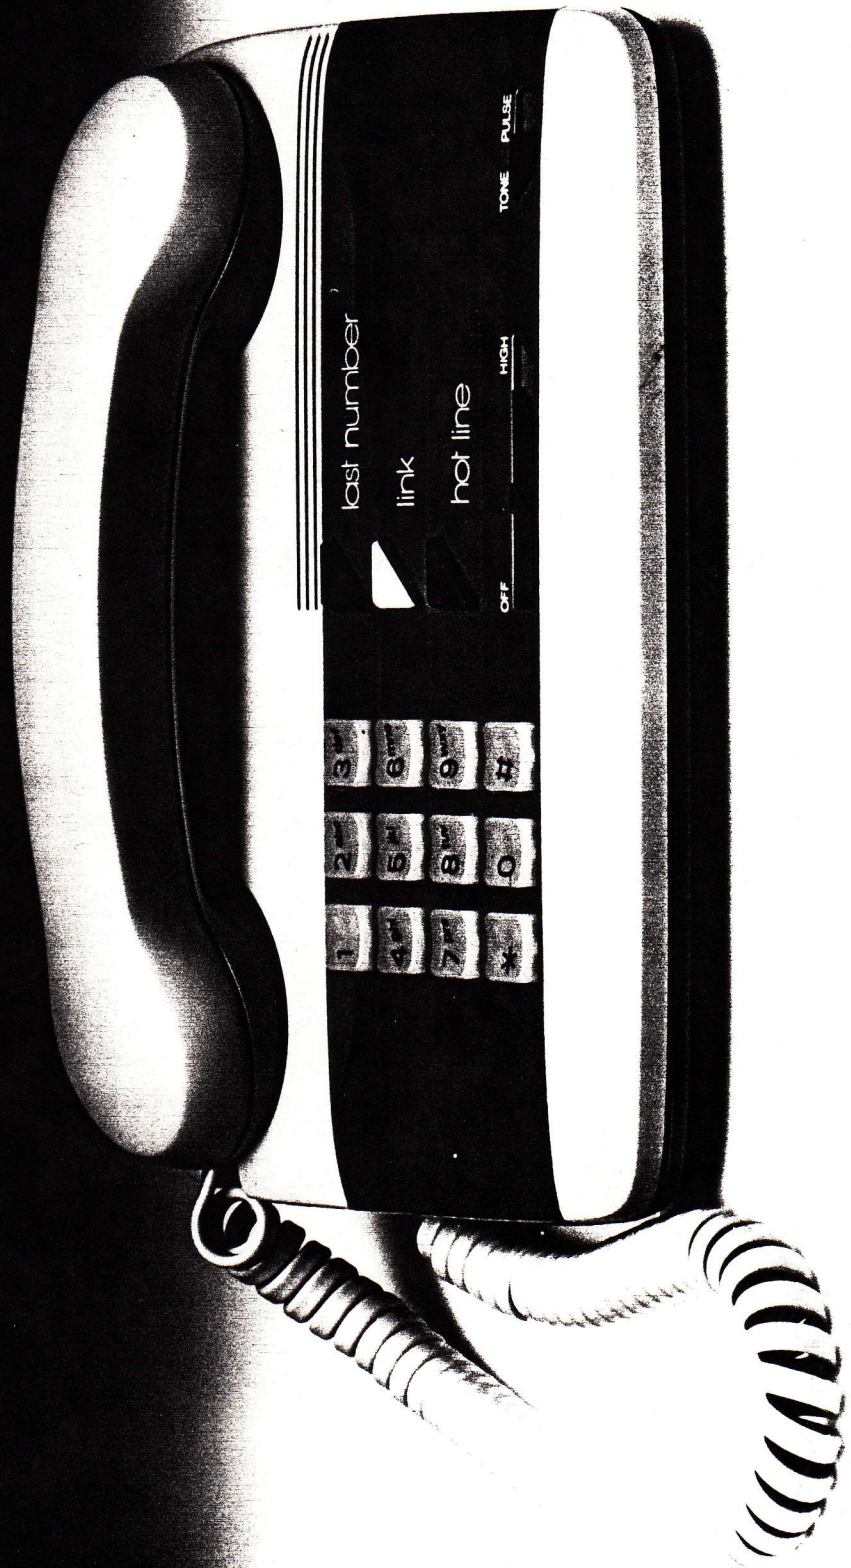

I will inform you, when a final decision has been made. In the meantime, could you contact Cliff Read with any questions regarding these two products.

Thanks for your support.

Regards,

Desmond Ryan  
Manager, Industrial Design  
Design Interpretive
